ADVANCED BRIGHTENING COMPLEX

pH	4.0
SKIN TYPES	Appropriate for all skin types.
DESCRIPTION	ABI's Advanced Brightening Complex is a super charged hydroquinone-free lightening lotion. This revolutionary formulation combines the proven power of Arbutin, Kojic acid, Resveratrol, vitamin C, Bearberry and Alpaflor® Gigawhite to safely and effectively brighten the complexion and reduce the visibility of skin discoloration.
BENEFITS	• Brightens and improves skin luster. • Evens out skin tone. • Visibly improves skin discoloration. • Controls over production of skin pigment. • Enhances cell turnover to improve skin texture. • Hydrates, softens and nourishes the skin.
DIRECTIONS	**Home Care-**Apply a thin layer to the affected area twice daily. When used during the day, always follow with sunscreen. Limit daily use to 3 months and wait one to three months before resuming. If no improvement is seen after 6 weeks, discontinue use.
POWER PURE™ INGREDIENTS	**Alpaflor® Gigawhite (Malva Sylvestris Extract, Mentha Piperita Leaf Extract, Primula Veris Extract, Alchemilla Vulgaris Extract, Veronica Officinalis Extract, Melissa Officinalis Leaf Extract, Achillea Millefolium Extract)** –is developed from alpine plants and is a skin lightener that provides Tyrosinase inhibiting activity. It has been shown to noticeably brighten and even skin tone as well as reduce the color intensity of age spots. **Alpha-Arbutin-** is a safe and effective skin brightener. It blocks epidermal melanin biosynthesis by inhibiting enzymatic oxidation of Tyrosine and Dopa. A natural plant-based derivative of hydroquinone with tyrosinase inhibiting abilities. **Kojic Acid-** penetrates the upper skin layers and inhibits the production of melanin.
ACTIVE INGREDIENTS	**Bearberry Leaf Extract-** is a powerful tyrosinase inhibitor also known for its antibacterial, antioxidant, and anti-inflammatory properties. **Resveratrol-** is a powerful grape seed extract that helps fade skin discoloration by directly inhibiting the tyrosinase enzyme and blocking the maturation of tyrosinase. **Magnesium Ascorbyl Phosphate** - is a stable, water soluble derivative of Vitamin C. This potent anti-oxidant protects the skin from oxidation including UV rays, improves skin elasticity by stimulating collagen production, inhibits skin cells to produce melanin, lightens and brightens the skin, and acts as an anti-inflammatory agent. **Tocopherol (Vitamin E)-** is known as an antioxidant "superstar" due to its incredible healing and repairing properties and also provides natural protection from damage caused by the sun.
COMPLETE INGREDIENT LISTING	Aloe Barbadensis Leaf Juice, Rosa Damascena Distillate, Persea americana Oil, Simmondsia Chinensis Oil, Emulsifying Wax, Glycerin, Arctostaphylos uva-ursi (Bearberry) Leaf Extract, Magnesium Ascorbyl Phosphate (Vitamin C), Elaeis Guineensis Oil, Malva Sylvestris Extract, Mentha Piperita Leaf Extract, Primula Veris Flower Extract, Alchemilla Vulgaris Extract, Veronica Officinalis Extract, Melissa Officinalis Leaf Extract, Achillea Millefolium Extract, Palm Stearic Acid, Tocopherol (D-Alpha), Alpha-Arbutin, Kojic Acid, Retinol Palmitate, Rosa Mosqueta Seed Oil, Ascorbyl Palmitate (L), Panthenol (D), Resveratrol, Allantoin, Purified Water, Xanthan Gum, Phenoxyethanol, Triticum vulgare Oil, Daucus Carota Oil, Salix Nigra Extract, Rosmarinus Officinalis Leaf Extract, Azadirachta Indica Oil, Tetrasodium EDTA, Citric Acid.
CAUTIONS	**Sun Alert:** Continue sun protection after the lightening regimen to avoid UV-induced pigmentation. Unprotected or excessive sun exposure can delay or inhibit results or even increase existing pigmentation problems. Do not use near eyes.
AVAILABLE SIZES	**Retail:** .5 oz.
